SUMMARY

Software Engineering undergraduate specializing in full-stack MERN development. Skilled in building scalable web applications, RESTful APIs, and responsive user interfaces. Strong foundation in backend architecture, database design, and modern frontend animations. Experienced in translating Figma designs into production-ready applications and collaborating effectively in Agile teams.

PROFESSIONAL SKILLS

Full-Stack Development (MERN) REST API Design
UI/UX & Responsive Design Agile Collaboration
Problem Solving

TECHNICAL SKILLS

Frontend: Nextjs, React.js, JavaScript, Tailwind
Backend: Node.js, Express.js
Database: MongoDB, Mysql
Tools & Concepts: Git, Postman, Figma, REST APIs, JWT, MVC, Agile

PROJECTS

Real-Time Chat Application

Built a secure real-time messaging platform using MERN.
Developed RESTful APIs, React interfaces, and responsive UI.
Integrated JWT authentication and MongoDB for reliable data management.
Optimized frontend performance with React state management.

E-Commerce Application

Built a full-stack e-commerce platform with user authentication and product/cart management.
Developed scalable backend services and optimized frontend components.
Implemented payment integration and order tracking with Node.js and MongoDB.
Added interactive UI elements and animations for enhanced user experience.

EXPERIENCE

Project Engineer (Academic Role)

Jan 2024– Jun 2024

Led the development of a full-stack web application using React, Node.js, Express, and MongoDB.
Designed and implemented RESTful backend APIs and responsive React interfaces with modern UI animations.
Collaborated in an Agile academic environment, including sprint planning, stand-ups, and peer code reviews.

EDUCATION

Capital University of Science & Technology (CUST), Islamabad
Bachelor of Science in Software Engineering
Expected Graduation: 2027

ADDITIONAL INFORMATION

Proficient in UI/UX prototyping and design workflows using Figma
Experienced in creating immersive 3D web interfaces with React Three Fiber
Passionate about building scalable, high-performance web applications and exploring modern web technologies
